Scott, Howard and John,

Do you have time for a call at 2:30 PDT? There are a couple of things I would like to discuss with John on stats.

Sean, I know you are headed to the airport.

Thanks,

Davis Zhen, Manager
Site Cleanup Unit 2
Office of Environmental Cleanup

Importance: High

Sorry. Please use this graphic. I made a subtle, but important, change to the direction on alternative location sampling.

I highlight where I made the change in Yellow.

Attached is a graphic that presents the approach/direction for current and future sampling under hard sediment conditions. We have given Julee this direction and she has conveyed this to the field crew.

John – Please let me know soonest if you see any fatal flaws with this now 2 composite sample approach for hard sediment/refusal conditions.

Thanks!
Scott

There is a technical nuance in our direction that I'm trying to confirm with John Kern, but we feel it is the correct method.

I will give you a call to explain.

Scott Coffey, L.Hg.
